WILLIE, August 29.—Dear Sir—I
had some time ago a description
of the county in the Houston Post,
but he probably was not posted.
The county lies west of the Neches
and Angelina rivers, and east of the
Sabine. The northern portion of the
county has the finest kind of farming
and the creeks are generally from
one to four miles apart; the bottoms
are mostly level and of the very richest
black soil, which will make
one-half bales of cotton to the
acre, and from thirty-five to forty
bales of corn, while on those
between the creeks is the very
best of limestone water and
soil. The general growth
of the state is beech, gum, Magnolia,
oak, walnut, elm, holly,
and other kinds of timber. The
timber is not very good; they
grow well through the summer, but
not in winter. Hogs do well,
and so many kinds of timber here
are mast, it is almost sure
that the land is situated in the northern
part of the county on the Neches
and the terminus of the East
railroad. It takes its name
from the immense rock quarry there,
some six or eight hundred acres.
There is a considerable rock
formation carried on here; there leave
from forty to fifty car loads
every morning for Sabine
which is used to build jetties
on this road south,
eight miles is Cominot. It is
the station of the Trinity Tap. This
has been built in the last eight
months, and has about one thousand
inhabitants, some ten or twelve
houses, three large saw mills,
large camps and one or
single mills. There seems to be
a declared against the timber
in the way they are tearing it
down.

Miss Minnie McGrover, of Dallas, is
in the city visiting relatives. She will
return home in a few days.
The Wills Point musical company
will have their first entertainment on
Thursday night. It is hoped that the
people will all turn out, for the pro-
ceeds are for the improvement of the
school-house, which is badly needed.
Mrs. Steele, the manager, deserves
great credit for the management of the
company.

The soiled doves few nights ago
had good chance and skinned, leaving
their bonds to hold the fort.

Miss Minnie Woodhouse left our
city on Friday to attend the Sherman
female college, where she will be gone
for six months. We hope that Miss
Minnie will have a pleasant time as
well as a beneficial one.

The boys generally are shivering
from the effect that the grand jury is
close at hand.

The noble order of Montezumas will
be renewed at Canton during district
court. The working tools are in order.

The citizens of the town and vicinity
will at the city opera hall on last Friday
to discuss the different points surround-
ing the question of taking stock in
the new Narrow Gauge railroad.
The list was handed round and stock
to the amount of \$15,000 was insured
and the people are confident of getting
the new road.

Miss Hattie Henderson, one of Marshall's fairest daughters, is on a visit
to Mr. and Mrs. W. B. Wynne. Miss Hattie
once was a resident of this place, but has since moved to Marshall,
which place she now adorns. Miss Hattie will remain in the city for
several days.

Rev. J. H. Kendricks of Terrell
preached a fine sermon at the Presby-
terian church on last Friday night.

The Wallis Homestead.

(Bentonville Times.)

Wm. Cooper and one or two others
went last Saturday to Wallis, intend-
ing, as nearly as can be learned, to
have a lively time, and turn things
upside down. Unfortunately for their
purposes, they struck the wrong town
and house. After getting intoxicated
enough to undertake anything they
went to Guyler's saloon making
free and loud declarations of their intention to brook no
opposition to their reckless and lawless
course. Advancing on Mr. Guyler
with a drawn knife, Cooper swore he would cut the heart out of
everybody in the place. He tried in
every way, backed by Marsh and
Williamson, to provoke a fuss, the
two latter being armed, and
making frequent display of their
pistols. He used repeatedly the
most blasphemous language towards
the smooth-faced firm, and then ap-
pealed to the crowd if they did not
think they were cowards who would
take his abuse. He would exhibit his
knife and get some one to feel the edge
that was to cut the heart of anyone
behind the counter, except Henry
McGreen, the negro bar-tender.
